

UNIVERSITY OF MAINE AT PRESQUE ISLE

181 Main Street
Presque Isle, Maine 04768

Exposure Control Plan

Written 2010
In Compliance With Federal OSHA Regulations

Purpose:

To insure optimal health and safety controls through education, training, and environmental precautions. An effective program will limit employee exposure to infectious materials.

Scope:

This policy shall relate to all employees who may be exposed to infectious materials as well as the University community at large. Identified target groups:

1. Faculty/Staff
2. Student employees

Compliance statement:

Guidelines used in this policy are developed from current standards from the appropriate regulatory or directing agency.
