

# New education mural unveiled in Presque Isle

**EDUCATORS AND COMMUNITY MEMBERS GATHERED** at the Key Bank building on Main Street on Sept. 29 to celebrate the installation of the first mural in Downtown Presque Isle.

Officials from the University of Maine at Presque Isle, Northern Maine Community College, SAD 1, the Presque Isle Downtown Revitalization Committee, the City of Presque Isle and Key Bank gathered at a concrete support wall next to the Key Bank building, between State and Hall streets, for the official unveiling of a 104-foot-long photo mural representing the city's three educational institutions. The mural was designed over the course of six months by Dick Harrison, the University's coordinator of graphic design, photography and website. Harrison's time and labor served as an in-kind donation from the University for the project.

UMPI, NMCC and SAD 1 officials gathered on Sept. 29 with officials from the City of Presque Isle, the Presque Isle Downtown Revitalization Committee and Key Bank to unveil the new education-themed mural in Downtown Presque Isle.

"The major theme [of this project] is to highlight the excellent educational opportunities in our community," said City Manager Tom Stevens. "We're fortunate to have these entities in Presque Isle, and we hope that this mural will be the catalyst for future murals in not only Presque Isle, but throughout Aroostook County."

The inaugural mural in the Star City was unveiled in style with a ceremony featuring the Presque Isle Middle

School Jazz Band and comments by representatives of the organizations who worked on the project. Following the entertainment and greetings, students from UMPI, NMCC and SAD 1 removed the covering to reveal the artwork.

"We are pleased to be able to join together with SAD 1 and NMCC on this project to bring more energy and color to our downtown, and we feel especially honored that the City of

## Gentile, physical education legend, passes away

**A LEGEND IN PHYSICAL EDUCATION PASSED AWAY** in late September, leaving behind a legacy of excellence in the classroom and service to students. Caroline D. Gentile, 84, of Presque Isle, passed away peacefully at her home on Friday, Sept. 19, 2008. Known to all as Miss Gentile, she touched the lives of so many students during her more than half-century of teaching at the University of Maine at Presque Isle.

Miss Gentile became a permanent fixture here in 1946, when Dr. Clifford O. T. Wieden hired her to teach at the then Aroostook State

Caroline D. Gentile

Normal School and build its Health, Physical Education and Recreation program. It has since gained a reputation for excellence around New England.

On campus, Miss Gentile has served in many leadership roles, including the Chair of the Division of Health, Physical Education, and Recreation for 20 years. She twice was president of the University Senate, twice president of AFUM, the faculty union, and was one of its founding members. For over 50 years, she orchestrated commencement

# Faculty Noon Seminar Series returns

**THE UNIVERSITY'S FACULTY NOON SEMINAR SERIES** returns for the Fall 2008 semester with presentations on everything from student evaluations to the Tibetan Plateau.

Seminars will be held on the last Wednesday of each month, from 12-1 p.m. in the Normal Hall Faculty Lounge. Presentations will be 20-30 minutes in length, followed by a discussion. The series kicked off in late September with a presentation by Drs. Lisa Leduc, Kim Sebold and Anja Whittington titled "Panel Session on Engaged Learning."

On Oct. 29, Dr. Michael Sonntag will present "Rate My Professor vs. Formal Student Evaluations of teaching." On Nov. 19, Dr. Chunzeng Wang will offer a presentation on "A New Perspective on the Tibetan Plateau Tectonic Evolution."

To provide a taste of what the seminar will offer during the spring semester, the first speaker already has been scheduled. President Don Zillman will lead a presentation on Jan. 28, 2009 titled "Beyond the Carbon Economy."

The purpose of the Faculty Noon

Seminar Series is to foster awareness of research and teaching activities taking place on campus and to provide a forum for dissemination between faculty members. The series also offers the opportunity to network and encourage transdisciplinary scholarly activity. As a campus wide forum, students, faculty and administrative staff are invited to present their work during the seminar series, which is held on the last Wednesday of each month.

For more information about the Faculty Noon Seminar Series, contact Lynn Eldershaw at 768.9749. ★

## Presque Isle mural

*continued from page 1*

Presque Isle and the Presque Isle Downtown Revitalization Committee approached us about participating in this first-of-its-kind project specifically because of the value this community places on public education at all levels," UMPI President Don Zillman said. "We see this as a way to thank our community for their continuous support of our endeavors while also serving as an important first step in bringing permanent art and other visual installations to Downtown Presque Isle."

NMCC President Tim Crowley said the mural also serves as a very visible example of the education continuum offered locally: "We see many students who graduate from Presque Isle High School, move on to NMCC to earn an associate degree, and continue to UMPI to complete their baccalaureate degree. All three organizations play a vitally important role in educating the future workforce and leaders of our region."

The original concept for a mural was first discussed in 2006 with a simple observation that the retaining wall on Main Street in front of Key Bank could be made more attractive if it had some color. Stevens ran with the idea and spoke with some of the participants involved in the Downtown Revitalization effort, where the idea of a mural was born. Presque Isle business owners Rick and Sandy Guerrette of 27 Sign Place were brought on board to work on the project. After several proposals, the photo mural was selected. The City Council agreed to a lease arrangement with Key Bank to allow the mural to be placed on their wall at no cost.

With this first mural now a Main Street fixture, officials hope it will spark the creation of more murals throughout the Downtown Presque Isle area. ★

Students Erin Pelletier, David Dekay, Tahira Francis and Chuck Weiss helped to unveil the new mural in Downtown Presque Isle, which is 104 feet long and features the city's three educational institutions.

# Tech Fair 2008 showcases latest technology

**THE UNIVERSITY'S MANAGEMENT INFORMATION SYSTEMS PROGRAM** will present its 7th Technology Fair, *Collaboration from Home or Office*, on Friday, Oct. 10 from 10 a.m. to 5 p.m. in the Campus Center.

The event will cover technology needs and issues for small business owners and managers, information technology professionals, as well as students, educators, and the general public in northern Maine and western New Brunswick.

This year's fair will feature a keynote lunch address at Noon by Bob Froberg, Director of Business Services for FairPoint Communications. Froberg will speak on "Creating Partnerships for Economic Development in Northern Maine."

Along with the keynote address, Tech Fair attendees will be able to take part in presentations that will run on two simultaneous tracks, with four presentations geared toward educators interested in new technologies available to them, and four presentations geared toward businesses seeking more on the job efficiency through technology.

In Track 1, educators can get a primer in streaming and alternatives to streaming; explore what the lecture classroom of tomorrow will look like; see a show-and-tell on multimedia options with online teaching; and learn all about BizHub

technology. These presentations will be offered in the Campus Center, room 118.

In Track 2, business officials can get a look at video conferencing technologies; learn about IP Telephony and how it can improve communication while reducing costs; explore what Virtualization is and how it can create efficiency; and get tips and tricks for using Microsoft Office 2007. These presentations will be offered in the Campus Center's Alumni Room.

The Tech Fair again will feature an open vendor floor in the Campus Center's Multi-Purpose Room, scheduled from 10 a.m.-5 p.m. The vendor floor will provide an opportunity for visitors to garner door prizes, ask the experts, and view the latest technologies from companies such as CBE Technologies, Tandberg, Netherlands, ELMO, CDW-G, Computer Connection, and Amity Professional Services.

Registration for the Tech Fair begins at 8 a.m. on Friday morning. There is a \$10 early registration fee or \$15 fee at the door, which includes lunch. UMPI students may attend all sessions free of charge. The vendor floor is free to all.

For more information or to register online, visit [www.aroostek.org](http://www.aroostek.org) or call JoAnne Wallingford at 768.9432.★

# University hosts 13th annual Science Day

**THE UNIVERSITY WILL CELEBRATE ITS 13TH ANNUAL SCIENCE DAY** when it brings a coastal erosion expert to campus as part of its Distinguished Lecturer Series.

Dr. Orrin Pilkey, the James B. Duke Professor Emeritus of Earth and Ocean Sciences at Duke University, will speak on "The Rising Seas: The Future of Miami and Eskimo Villages" at 7 p.m. on Wednesday, Oct. 22 in the Campus Center. The public is invited to attend.

Science Day is held every fall at the University to celebrate the 1996 opening of the Northern Maine Museum of Science. The goal of Science Day is to bring widely known scientists to campus to talk about current topics in science.

Dr. Pilkey's discussion will focus on beach erosion, sea level change, and

human influence on coastal environments. His research career started with the study of shoreline/continental shelf sedimentation, progressed to the deep

Dr. Orrin Pilkey

sea with emphasis on abyssal plain sediments and back to the nearshore with emphasis on coastal management.

Pilkey received his bachelor's degree in Geology at Washington State College, his master's degree in Geology at the University of Montana and his Ph.D. in Geology at Florida State University. Since 1965, he has been at Duke University with one-year breaks with the Department of Marine Science at the University of Puerto

Rico, Mayaguez, and with the U.S. Geological Survey in Woods Hole, Mass. He has published more than 250 technical publications and has authored, coauthored or edited 39 books.

During his career, he has received several awards, including the Jim Shea Award for Public Service from the National Association of Geology Teachers in 1993, the Outstanding Public Service Award from FEMA in 1999, the Geological Society of America's Public Service Award in 2000, and the Lifetime Achievement Award from the North Carolina Coastal Federation in 2008.

All are invited to attend Dr. Pilkey's lecture. For more information about Science Day, contact Dr. Kevin McCartney at 768.9482.★

# Social Work student plants 1 millionth tree

**GREG GOUTHRO, A SENIOR IN THE UNIVERSITY'S SOCIAL WORK PROGRAM,** strives to make the world a better place all year around. Gouthro spends his falls and winters learning how to help people through a career in Social Work and he spends his summers making the world a greener place.

Gouthro – an active member of the Student Organization of Social Workers and UMPI's state student representative to the Maine Chapter of the National Association of Social Workers – does treeplanting in the summer in Northern Ontario and Eastern Canada to help pay for college.

While working in the treeplanting business, Gouthro has met people from all over the world, giving him the chance to work hand in hand with diverse populations and learn about how their cultures view the environment and the world of forestry.

It's been an eye-opener for the Social Work major, but this summer, it got even better – Gouthro planted his 1 millionth tree. It's a major accomplishment, but Gouthro keeps it all in perspective.

"I began treeplanting because it helped pay for college and with the world becoming greener I feel like I am doing my part in helping that process," he said.

Social Work student Greg Gouthro planted his 1 millionth tree this summer. Gouthro started tree planting to help pay for college, and has since met people from all over the world.

Gouthro, who is currently doing his internship at the Department of Corrections Juvenile Division in Presque Isle, said that he intends to continue treeplanting, and his Social Work professors couldn't be more pleased.

Said Shirley Rush, one of his professors: "While Greg is very modest about his accomplishments, we are very proud of him and would like everyone to know about his achievements." ★

## Gentile

*continued from page 1*

every year, paying strict attention to protocol and tradition.

Miss Gentile also served in leadership capacities around the state. She was the President of the Maine District in HPER; president of the Maine Association of Health, Physical Education, Recreation & Dance; a member of the Governor's Advisory Commission on HPER; the American Association of HPER Publications Director for Maine; and one of the organizers of the Maine Association of Intercollegiate Athletics for Women.

Community service was always important to Miss Gentile. She was a member of the National Federation of Business and Professional Women since 1947, the American Association of University Women, Delta Kappa Gamma, the Director of the Presque Isle Recreation & Parks Advisory Board, and she served as a gubernatorial appointee to the Maine

Commission for Women.

Her service did not go unnoticed. In March of 2000, she was inducted into the Eleventh Maine Women's Hall of Fame. In 2003, she was inducted into the Maine Sports Legends Hall of Honors. In November of 2006, MAHPERD honored Miss Gentile with its Highest Praise Award. During the presentation, the master of ceremonies asked those present to stand up if they had Ms. Gentile for a teacher. Half the room of a crowded Samoset banquet area rose to their feet.

Even after her retirement, Miss Gentile continued to contribute to the vitality of the physical education program and to the health of the community by her generous gift of \$500,000 to help build a new wellness center. The building, which bears her name, will forever stand as a testament to her undying devotion to the University and its community.

Miss Gentile was born in Newton, Mass., on January 24, 1924, the daughter of Gerardo and Donata

Bucchelli Gentile. She graduated from Newton High School and went on to earn a bachelor's degree from Sargent College and a master's from New York University. In 1996, in honor of her 50th year of teaching at the University, she was awarded an honorary doctorate.

At Miss Gentile's request, there will be no funeral service. However, the University will hold a memorial service to honor her life on Wednesday, Oct. 8 from 12–2 p.m. in Gentile Hall. All classes and other University events will be adjourned for the service. Several people will speak at the service, and after their presentations are completed, all will be welcome to step forward to a microphone for brief recollections of Miss Gentile.

Those who wish to contribute to her memory may send contributions to the Caroline Gentile Scholarship Fund c/o Foundation of the University at Presque Isle, 181 Main Street, Presque Isle, ME 04769. ★

# Dos Miguels to bring African rhythms to Presque Isle

**MUSICIANS MICHAEL WINGFIELD AND MICHAEL SHEA** will offer a night of jazz, Afro-Brazilian and Afro-Cuban music when they perform at 7 p.m. on Monday, Oct. 6 in the Campus Center.

Wingfield, a percussionist, and Shea, a keyboardist, will offer an interactive performance, engaging the audience in occasional call and response and encouraging people to dance in the aisles to the rhythms they create during their show.

This performance features the return of Michael Wingfield, who most recently served as the first performer in Presque Isle's Music in the Park series this summer.

"I saw how well he interacted with the community audience, from children to older folks," Carol Ayoob, Director of Cultural Affairs, said. "He

had people from the audience up dancing and playing a variety of instruments. People were thrilled that they had the chance to participate in the performance. So I wanted to bring Dos Miguels, and especially Michael Wingfield, to Presque Isle and put that energy on a University stage."

Wingfield's forays into the rhythm and songs of African New World music have brought him onstage with performers such as Flora Purim and Airto, Richie Havens, Herman Johnson and Boston's Stan Strickland. His collaborator on Monday evening, Michael Shea, is an alum of the Artie Shaw Band, Either Orchestra, Denver-based Brazilian ensemble Traversia, and salseros Conjunto Colores.

The day before their official per-

formance, Wingfield led a community workshop for drummers of all levels. The workshop was held on the Wieden Auditorium stage and gave all participants, from beginning drummers to experts, the chance to learn drumming techniques.

Tickets for the Oct. 6 concert are \$10 for adults, \$5 for students, and free to UMPI, NMCC and SAGE students with valid ID. For more information, contact Carol Ayoob at 768.9462 or email her at carol.ayoob@umpi.edu. ★

## Ehrlich ceramics exhibit

**MANHATTAN ARTIST RISA HIRSCH EHRLICH WILL BE IN THE COUNTY** on Sunday, Oct. 19 at 4 p.m. for the opening reception of her solo ceramics exhibition "Consider a Moment of Stillness" at the Reed Fine Art Gallery.

During the Oct. 19 reception, Ehrlich will give a brief talk and answer questions about her work. Ehrlich's show will feature the single medium in which she works: clay. However, she works within the many forms of the medium, according to Reed Fine Art Gallery Director Sandra Huck.

"She is intrigued by the thought that the surface is the content," Huck said. "It's wonderful to have an artist with a proficiency in ceramic techniques that have not been taught here for a number of years. She will introduce uses of underglazes and different

forms of hand building."

Huck explained that some of Ehrlich's ceramics work is inspired by artists who work in other mediums, such as the cut canvases of Frank Stella and the art attachments of Robert Rauschenberg.

Says Ehrlich of her work: "Ceramics is a fragile medium. I like its accidents. I invite them... I like clay beginning frail and ending powerful. I like challenging clay to be beautiful despite my efforts to disdain beauty. The dialectic is to turn destruction upon itself and thence into art."

During her two-day visit, Ehrlich will conduct a ceramics workshop with ceramics students at the University.

"It's wonderful to bring her up here as an artist and a friend," said Huck, who met Ehrlich years ago when she

spent a semester in New York City studying at the Teachers College, Columbia University. "I think she's going to have some fascinating things to say to the greater community about ceramics work that they may not already know about."

The public is invited to attend Ehrlich's reception. Light refreshments will be served. Ehrlich's show will be on display through Nov. 26. Gallery hours are from 9 a.m. to 4 p.m. Monday through Saturday. The gallery is closed Sundays and University holidays. For more information, call 768.9611. ★

notes

**SAGE celebrates tenth year with birthday event**

On Oct. 17, the University's SAGE Program (Students Achieving Greater Education) celebrates ten years of provid-

ing courses and excursions for intellectually curious adults, age 50 and older. A celebration has been planned from 10 a.m. – 2 p.m. complete with a "Taste of SAGE" sampling of short courses for participants to experience.

Rabbi Harry Sky, founder of the Maine Senior

College movement, will offer a presentation on lifelong learning during an 11:30 a.m.

Lunch and Learn session. For information or to register, call 768.9502 or email [mary.l.lawrence@umpi.edu](mailto:mary.l.lawrence@umpi.edu).

**Soup sales to fund social work trip to Guatemala**

Six students in the Bachelor of Social Work program will be serving up soup in an effort to fund a trip to Guatemala for a February break service learning project. Place soup orders by noon on Wednesdays for pick-up Fridays between 11:30 and 1 p.m. in the Normal Hall Kitchen. Each order includes a recycled mug, soup du jour, and crackers or biscuits. The goal is to sell 200 meals at \$5 each. Many thanks to all who donated mugs! For a complete schedule of available soup flavors and sale dates contact [shirley.rush@umpi.edu](mailto:shirley.rush@umpi.edu).

**OAPI offers fall break trip to Acadia National Park**

The University's Outdoor Adventure Program International (OAPI) will offer an excursion to Acadia National Park, Oct. 10 – 13, for those who

wish to hike, camp, and experience the natural beauty of the coast of Maine. Cost for the trip is \$80/students and \$100/non-students, which includes food, camping fees and transportation. Deadline to register is Tuesday, Oct. 8. Contact [amanda.morin@umpi.edu](mailto:amanda.morin@umpi.edu) or 768.9401 to register or for information.

**Award-winning a cappella group to perform**

Hailed as the next shining star of a cappella vocal music,

Blue Jupiter will perform a one-night, energy-packed, inspirational show on Saturday, Oct. 25, at 7:30 p.m. in Wieden Auditorium. Blue Jupiter has won numerous awards and most recently performed in "VH1's Save the Music Event." The show is free

for students with ID, \$5 for non-students and adults. For information call 768.9582.

**University hosts human resource conference**

The Northeast Society for Human Resources will host its 12th Annual Employment

Law & Human Resource Conference at the University from 8 a.m. – 3 p.m. on Wednesday, Oct. 15, in the UMPI Campus Center. President Don Zillman will present a session on Strategic Professional Communication. For more information and to register, visit <http://neshrm.shrm.org>.

**Wind power conference scheduled for Oct. 21**

The St. John Aroostook RC&D will host a wind conference, "Increasing Energy Diversity and Independence: Growing Wind Power Generation in Maine," on Oct. 21, from 8:30 – 4:30 p.m., in the UMPI

**University hosts annual Blood Drive**

**THE UNIVERSITY WILL HOLD ITS ANNUAL FALL BLOOD DRIVE** on Thursday, October 23, from 12–6 p.m. in the Campus Center's Multi-Purpose Room.

The blood drive is sponsored by the University's Residence Life Office, the Brothers of Kappa Delta Phi and the Sisters of Kappa Delta Phi NAS. Walk-ins are welcome and door prizes will be given away during the drive.

If donors wish to reserve a time in advance, they should call 768.9585 between 8 a.m. and 4:30 p.m. before the day of the drive.

The American Red Cross needs to collect 1,400 pints of blood each working day to meet the needs of people in

Maine, Massachusetts, New Hampshire and Vermont. Currently, the New England Red Cross is 1,000 pints behind its expected blood collection for the year.

"We are encouraging everyone to at least consider the possibility of becoming a blood donor," Jim Stepp, Assistant Dean of Students/Director of Residence Life, said. "It is relatively painless and doesn't take much time."

The University regularly holds two blood drives per year, and has records of blood drives dating back to 1987. Since that time, the University has collected more than 2,500 pints. Stepp said the University hopes to collect 150 pints of blood this year. ★

**Elections November 4!**

*It's not too late to register. Stop by South Hall for registration materials.*

# notes

Campus Center. Officials from the Maine Public Utilities Commission, Natural Resources Council of Maine, and National Renewable Energy Laboratory will offer conference sessions. For more information, contact Skip Babineau at 764.4126.

## Women, Work and Community presents fashion show fundraiser

On Sunday, Oct. 26, Women, Work & Community will celebrate their 30th anniversary in style with a Fall Fashion Show Fundraiser from 2 – 4 p.m. at the Aroostook Shrine Club in

Presque Isle. Erin Benson and

NMCC's Jason Parent will serve as co-emcees for the event with UMPI's own President Don Zillman modeling the latest fall fashions. Tickets can be purchased for \$7 at the door or at the WWC Center, NMCC campus in Presque Isle. FMI call 764.0050.

## Proposals sought for 1968 Retrospective

This year marks the 40th anniversary of a truly transformational year in politics, education, science and culture. With that in mind, the University is

planning a week-long 1968 Retrospective in mid-November. The retrospective culminates with a Nov. 15 conference which is open to all who are interested; proposals for conference presentations must be submitted by Oct. 15, 2008. For further information visit [www.umpi.edu](http://www.umpi.edu) and click on the 1968 Retrospective box.

## Dwarf Planet Ceres recognized with sign

With help from area volunteers, the dwarf planet Ceres now has signage to recognize its presence as part of the Maine Solar System Model. Ceres, located near the Jameson Road in Presque Isle is one of three dwarf planets recently added to the model, a project of the University's Northern Maine Museum of

Science. For information about this project contact [kevin.mccartney@umpi.edu](mailto:kevin.mccartney@umpi.edu) or call 768.9482.

## Upward Bound offers parent, student Saturday events

Upward Bound will host a special retreat, Saturday, Oct. 11, from 8:30 – 3 p.m., for high school seniors in the program, as well as their parents, which will focus on helping them to complete the college application and financial aid process. In addition, Upward Bound Saturday College will be offered on Oct. 25, from 9 a.m. – 2:30 p.m. for registered students and parents. During this event, donated computers will be distributed to students who need them. For more information call 768.9612. ★

## Andy at UMPI catalogue is online

To view an electronic version of the "Andy at UMPI" catalog from the current Reed Gallery exhibition click this link:

<http://www.umpi.edu/files/home/WarholExhibitCatalogue.pdf>

The exhibition continues through October 11. Gallery hours are Mon-Sat, 9 a.m. – 4 p.m.

Andy at UMPI

## Go Owls!

Students were busy recently adding a little school spirit to the soccer field.

## Interested in joining the UMPI Community Band?

Practices are held every Monday, 6-9pm in the Wieden Music Room. Watch for details about the **Winter Concert** in early December! FMI: [kinseyk@sad1.org](mailto:kinseyk@sad1.org).

## Seniors – Have you applied for graduation yet?

FMI call Student Records at 768.9540
