Singapore 11th Dec 18th 1842

I was Brother of table may from in hand
to inform you that I and well and hope
these few lines may find you enjoying the
same happiness. I received of course the good news
and was very happy to hear from you.
Parent's brothers and sisters are all well
but I should have to say to you that
I am not come up to the assistance
this winter as I have arranged business
affairs from what I can tell
but I think I shall come up summer
if life and health permit -
when you write again I would you to
inform me how you are getting along
in farming &c. Likewise how you
come on, paying for land -
but I must close on this as it is about
midnight and I am weary
fociteat

and when my form you cannot see
look in these lines and thank of me

I am your affectionate
Brother of mine
Richard
