Friend Richard, Dear Sir: - I have just
been writing to Michael in regard to our case
about the home made of the bank they said
not to be living on, but I think
the school will have to come down
here if the wife has of the bank's time
and not to come and over in her return
and the work to Justice's hands. I do not
think it necessary, I moved the bank you
and John Charles, with your approval
and the fact of Richard's estate bond, and
state it back to the time when that bond
was given, then the bond can be used
in evidence, without either of you being
here - that is the way, why I want
you to appear at - It is in fact neither
from the fact of your retaining the
bond in your possession and on the
absence of it in the hands of the
of the bank and you and John Charles have
returned it in immediate of your old
not appear of it however, it is just
as well now, if you will attend to
this and state it a day or two after the
of the bond if you have not already
done so
