Mr. Perkins Dear Sir,

I don't give you blanks from Epworth, hope they have been one?

I suppose there are many who are learning in your vicinity and may be using goods on order "Made them" has a claim for duties. I wish you would write me (whichever) who are thus using goods and when they can find lowest on the side of the line, otherwise you who are being grossed all your places better.

Should you find goods are going to find them I am from this.

There are no landing goods in the Province except when they are certified as necessary by the officers of the Revenue, and the duties, I suppose of this kind has been done too many times.

Yours Truly
Wm. A. King
