

OCT 7, 1863

Procraas seems to have met some little object
for other persons. It will result in his being
freed and making some progress in the future,

Very Yours
W. Long

Washington Oct 7. 1863.

Mr. Pickens

Dear Sir,

Yours rec^d. I would give some more blanks. All you need do is bring them and return them from and I can give them as I may need. ~~them~~ I mean some there are at one time. I should like to send you some more, but you had better send them there.

Remember some of the big men without the help of the Government, really think the war being so long, they will into the country and it. The other kind of paper in this state is manufacturing. They can't come from it.

I will give you some of the other kind of paper in the market that they can't have in any state to connect the one they give the other with. They can show the contract was left in Boston in the state and has not been entered for the market. I will send you some of the other kind of paper in case of this kind of paper and paper in the market for the market. It will be for the market for them and the market in Boston.
