Mr Richards

Dear Sir,

Wm. Johnson 11th 1866

I got the impression that \$4500 dollars would pay the three years. As I had agreed you, this is \$1000 - dollars would pay an account of his against you. Now I am for him \$550 dollars which is \$100 more than I have had been at on if you did not see him that, because the bank he agreed with and his charge the mortgage, will you write me how this is -

Will you write me what amount of things will be likely to be manufactured and by G. M. Kelly & Hammond this spring for our markets,

I will Post Johnson was about 30 heads
