Shed + saw wood, from  
the shed as I shall want  
soon to me - The Pigs must  
be made 'warme to make Park  
of them, As Fred + I make  
them comfortable + get some  
straw for bedding - I hope  
you with the team to have  
up the goods - I can  
if he can get them haul them  
slabs to the house - If Mr  
Keammund will give them straight  
I shall be glad -

As Fred I have not yet  
seen his mother but shall in  
a day or two I think.

Yours heartily,

Edw Smith

Dear Sir

I found Burr  
in Houston dividing up offices  
for our District. I had not time  
to know what was said about  
Yam Quen before the stage went  
but hope to hear by Wednesday  
when then do what I think best  
in the premises. It is said and  
I think with truth that Odell is  
to be appointed Collector at  
Eastport - Col. C. M. Roberts is  
appointed collector here but  
has not yet rec'd his commission

Left the Log with Deagan  
who was to send it on by  
Road Saturday last - If  
Remond has not work to do  
let him send Mr. Moulton
