

unless you had measured out
what grain and hay you wanted
before. Which perhaps you did.

I only speak of this, because if
we do not get @ chance to see
we want to pay you your bill
which will have to come off
of the farm, and we are all
anxious that you should have
what is due you, and hay
and grain are both getting
higher, and this summer it
would see well should we have
more than they want for @
winter. I don't wish to
stand this now. Of course
the farm has to furnish the
stuff for what stock and horses
were on the place until spring
excepting my colt which I will
pay for wintering, but those that
you have bought and kept at

home any length of time
you should keep separate so as
to know how much you have
used and the amount you should
retain in the face, perhaps you
have got it all right. Of course
I am interested in you all at home
and am very anxious to see you
properly, and we must both be
interested in Mother and the girls
affairs also. Did you collect
Deans note? which I sent some
time @ go. Mr F. told me
he would let me have some
money about the fifteenth of
this month, should you need
any now to me will let
you have it then. Have
Mother and the girls got what
things they have got to have
this spring? Keep me posted
and how you are all getting
along. When do you begin to
