3:30PM - 4:45PM	Tuesday	3:00PM - 5:00PM

* Evening courses will meet for final examination at the regularly scheduled time and place during finals week.

* In the event that you are scheduled for more than two exams on one day, you may contact the instructor whose exam is scheduled latest to arrange another time to take the exam during finals week. If you have any questions concerning final exams, please contact your instructors prior to the week of finals.

All end of semester examinations must be administered during the final exam period. The week prior to the examination period will focus exclusively on new and review material. **NO examinations, whether segment or comprehensive should be scheduled or administered during that week.** The one exception to this policy, due to unavoidable problems of staffing and use of space, is that lab practicals for certain courses in biology, chemistry, and geology may still use the last week of classes.
