Dual Enrollment Pathways: the First 15

THE WAY IT SHOULD BE

YOU CAN GET

Dual Enrollment

Dual Enrollment courses are taught in the high school by teachers with college-level credentials.

They have worked hard behind the scenes with University faculty to ensure that the course is equivalent to a college-level course. By taking a dual enrollment course, you will be able to apply it towards both your high school diploma and a college degree at the same time!

Pathways

PATHWAYS ARE THE REQUIRED COURSES TO YOUR FUTURE CAREER.

Every college certificate and degree has courses that are designed to give you the skills and knowledge to succeed at your career. By choosing dual enrollment or Aspirations courses that align with your career, you can get a jump-start on some of those requirements right now.

Dual enrollment allows you to invest in your future while enjoying the present."

the First 15

COMPLETING 15 CREDIT HOURS OF COLLEGE WORK WHILE IN HIGH SCHOOL IS NOT ONLY POSSIBLE BUT IS A REAL ACHIEVEMENT TOWARDS EARNING YOUR DEGREE!

These courses come directly from curriculum within the first two years of study and apply towards your major. Even if you are not sure of your major, many courses may still apply.

Look through these high demand career pathways that will give you a complete semester of college credit while in high school.

THERE FROM HERE

I kept telling myself that I could do this... until I did it."

Pathways to degrees

BY TAKING A DUAL ENROLLMENT COURSE, YOU ARE ALREADY ON YOUR WAY TOWARDS THAT DEGREE.

The statistics don't lie. Over the course of your working career, if you have a college degree, on average you will earn over \$1 million more than you will if you do not have a degree! Think about it. If your area of interest is not listed here please check out the numerous programs, degrees, and certificates at UMPI's website: umpi.edu.

Please note that a few courses may only be available as Aspirations courses.

Pathways

BUSINESS ADMINISTRATION

If you are interested in the fast-paced world of business and industry or becoming an entrepreneur then business administration may be for you. This program is designed to give students maximum flexibility for careers such as accounting, marketing, finance, human resource management, and many others. Students have the opportunity to develop appropriate skills, while also preparing to lead organizations through innovation and change.

LIBERAL STUDIES

The Bachelor of Liberal Studies Degree Program is an interdisciplinary major in which the student may pursue broad interests or develop a specialized program in areas where majors are not currently offered. This option is designed by the student and the academic advisor to ensure comprehensiveness in the student's academic experience, while at the same time affording flexibility in fulfilling requirements. The B.L.S. may serve as a terminal degree or as preparation for graduate school, professional school, or employment in business, government or industry.
