## The theme for 2025 is **THE ANATOMY OF LEADERSHIP**

Embark on a leadership journey into the science and art of modern leadership! Inspired by the intricacies of the human body, each session will examine a different "system" of leadership--from the brain (strategic thinking) to the heart (emotional intelligence). Along the way, you'll learn about adversity and accountability, leading a diverse workshop, and building high performing teams.

**Wednesdays, 4-6 p.m.**  
Feb. 26-April 16\*

University of Maine at Presque Isle  
MMG Center

\*The finale will take place on Wednesday,  
April 16, in the Campus Center, 4-7 p.m.

Participants are expected to attend all sessions.

## Looking for the skills that will bring you long-term success in your career?

Then this professional development opportunity is exactly what you've been looking for.

The **Young Professionals Institute** will take you through several hands-on, business simulation exercises to teach you the skills you need to excel in your workplace and reach your professional goals. These skills—**team work, communication, decision-making, problem-solving and adaptability**—are among the top skills employers today are looking for in prospective employees as well as candidates for advancement.

### You will:

- ✓ Hone leadership skills needed in the modern workplace
- ✓ Learn to be proactive and resilient in today's constantly changing business environment
- ✓ Explore emerging workforce trends
- ✓ Build professional relationships through several networking opportunities
